Other

Description of Other Released Contaminant:

Inspected:

Written Report Received: 1/25/2016

Clean Up Concluded: 9/16/2015

Risk Evaluation:

None

Areal Extent:

Released fluid flowed for very small area where it was contained using a dirt berm.

Potential Environmental Impacts:

None

Action Taken or Planned:

Well was shut in. Standing fluid was recovered. Impacted area will be removed via repair. Other area flushed and recovered.

Wastes Disposal Location: Approved landfill

Agencies Involved:**Updates**

Date: 7/27/2015 **Status:** Reviewed - Follow-up Required **Author:** Suess, Bill

Updated Oil Volume: 2.00 barrels

Updated Salt Water Volume: 10.00 barrels

Updated Other Volume:

Updated Other Contaminant

Notes:

Release was from a pipeline that left the well pad. Follow-up is required.

Date: 8/6/2015 **Status:** Inspection **Author:** O'Gorman, Brian

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

Arrived on location at 12:30. 74 degrees F, P. Cloudy, West wind 15-25 mph. Observed the site and took photos. The well pad is located approximately 250 yards north of 88th St, 1st turn east of 167th Avenue. It appeared that there were three locations that had been disturbed. All were on the south side of the pad, and were on slopes facing towards the pad with the vegetation grasses and alfalfa. Cropland was on uplands adjacent to the pasture strip. It appeared new soil had been placed onto disturbed areas. Two slide off dumpsters were full of excavated soil and a pile was placed on the east side of the pad with a berm and plastic lining the bottom. No further on-site followup needed unless responsible party does not provide analytical data or photos of vegetative growth.

Date: 6/14/2016 **Status:** Inspection
